UNITED STATES

USC Entertainment Technology Center **GenAI CG Generalist** 2025
+ On live-action/AI hybrid film *Pathways*. Procedural environments, lighting exploration, and an artist-facing tool; Supported the 3D render workflow setup for ControlNet-guided open-source GenAI pipelines; AI asset generation. Blender, ComfyUI, LoRAs, Beeble, Jetset, Photoshop, FLUX, cloud AI tools, ShotGrid.

Haymaker VFX **GenAI CG Generalist** 2025
+ Independently executed all 3D work; designed shots, generated AI assets, and handled final image finishing for an AI-driven commercial spot. Blender, ComfyUI, Invoke, Astra, WAN, QWEN, FLUX, cloud AI tools.

Viz Lab, Texas A&M **Experimental Artist - Live Entertainment** 2025 - 2026
+ Produced Gaussian Splats and ControlNet-driven GenAI cinematic visuals for a theater production.
+ Developed motion capture-driven interactive TouchDesigner visuals for a live dance performance.

Virtual Production Institute, Texas A&M **VP Teaching Assistant/Filmmaker** 2023 - 2025
+ Teaching Assistant, Virtual Production summer industry course at Stray Vista Studios, Austin.
+ On-set teaching assistant, VIST 327: Virtual Cinematography and Lighting. Led session on on-set lighting.
+ Lab instructor, VIST 289: Computing For Visualization II (Python, Houdini, Processing).
+ Led a full-cycle solo documentary production; filmed 61 hours, conducted 30 interviews.

INDIA

Malayalam Cinema Industry (live-action) **Assistant Director, Story Artist, 2nd AC** 2022 - 2023
+ Supported production design across five time periods on a feature, contributing to world-building and vis-dev during script development. Conducted literary and art research, interviews, and location scouting. Collaborated closely with Kerala State Film Award-winning director and other key creatives.
+ Drafted storyboards for a feature film with a National Film Award-winning director.
+ Served as editor for previz shoots, managed edit report, clapboard, and DIT; assisted production scheduling.

Kerala Tourism **Animation Filmmaker/Festival Designer** 2022
+ Independently made a stylized 3D animated short for Cochin Carnival - major New Year festival in India.
+ Led visual development, designing the festival mascot, and the signature 65-foot Papanji effigy ceremonially lit at midnight before a live audience of over 500,000 attendees.

CEFSI Aero-Hydodynamics Lab **Research Engineer** 2020 - 2022
+ Researched generative algorithm-driven design and optimization of compliant aerofoil structures for UAV applications; MATLAB, prototyping, and testing.

ComfyUI | Blender | Unreal Engine | Maya | Houdini | Substance 3D | Geometry Nodes | VEX | Python | C++ | Gaussian Splats | Photoshop | DaVinci Resolve | ShotGrid | ICVFX | Mocap | TouchDesigner | Compositing | Storyboarding | Visual Development | Photobashing | Production Design | On-set production

EDUCATION

Texas A&M University **MS in Visualization** 2023 - 2026
+ Google Creative Fellowship finalist, SONY Scholarship, Best Body of Work Scholarship, full-tuition.
+ GenAI, virtual production, mocap, real-time rendering, animation TD, live-action, theater acting.

Rajagiri School of Engineering and Technology **BTech in Mechanical Engineering** 2016 - 2020
+ Led winning team in Indian Space Research Organization Lander Mission Design Contest 2018.
+ Top Engineering admit, full-tuition scholar, president of graphics & video club, short films, installations.
